Sparkling water with long-lasting fizz.

Viovand® (optional)
Chemical-free, eco-friendly integrated UV-LED purification.

Hygiene

Totality®
Filtration and hygiene assurance with Biomaster®.

Optional accessories

SensorBeam™ Base Cabinet
Floorstanding base with projection touchless dispense.

Evolved, intelligent technology.

Designed for a greener future, the E6 is an evolved, energy-efficient and sustainable approach to bottleless filtered water. Featuring a powerful four-way dispense, the E6 utilises advanced energy-saving EcoMode technology and optional SensorBeam projection touchless control. The E6 delivers unrivalled powerful performance and hygiene protection, and is compatible with optional, future-thinking SIMSecure data connectivity for enhanced insight and servicing.

Environmentally advanced design.

The E6 is powered by our exclusive, compact ProCore® system, with discrete ventilation, advanced modularity and a lower carbon footprint. Thanks to its intelligent EcoBoil energy-efficient hot water system, DryChill® airless, rapid cooling technology, eco-refrigerant gas and recyclable components, the E6 delivers the ultimate in sustainability, hygiene and performance.

Confidently clean water.

Totality® is our 5-step methodology to achieving pure, healthier, premium water. Providing hygiene assurance in every pour, Totality® reduces sediment, odours, chlorine and microplastics, for freshly-filtered water that is safe to drink and tastes clean and crisp.

For complete peace of mind, select integrated Viovand® enhanced UV-C purification. The ultraviolet LED technology provides eco-friendly, chemical-free sterilisation to reduce bacteria and viruses.

Bottleless water for every environment.

Designed for working environments, the E6's premium finish and contemporary aesthetics are easy-to-clean and feature a durable Fynil® finish with antimicrobial silver ion protection, providing complete hygiene confidence in communal areas. Easy to install as a countertop or floorstanding unit, the E6 eliminates the need for single-use plastic bottles and coffee cups, allowing you to refill and enjoy locally sourced, premium water.

Smart, sustainable,
energy-efficient,
bottleless water.

Excellence in every pour.
